Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1903 Excerpt: .Instruction in this department is both theoretical and practical. Class-room instruction is given by text books and by lectures. In the gardens, greenhouses, orchards, and upon the campus and grounds, object lessons are presented the classes and work required which illustrate in a practical manner what is taught in the class-room. Freshman Class.--Each and every student attending the college devotes six weeks during his freshman year to the study of The Home, Garden and Orchard. No matter what his profession or calling may be in after years, be should know how to grow an abundance of fruits and vegetables for home consumption. At the beginning of the sophomore year students taking the Agricultural Course must specialize in one of the following departments: Agriculture, Horticulture, Dairy Husbandry, Veterinary Science, Agricultural Chemistry. In addition to the general course of instruction (see elsewhere in this catalogue) students specializing in...
