Performing Miracles and Healing is a comprehensive study of all the healing events in the New Testament. It tackles each event by doing a complete phrase by phrase discussion of what the New Testament records. It is organized into three groupings of chapters. The first covers each of the events in the New Testament where a multitude or a smaller group of people such as the Ten Lepers are being healed. The second grouping covers each of the healings or miracles involving an individual such as the woman with the issue of blood or the centurion s servant. The third grouping of chapters deals with the implications of the truths found in those healings to healing theology. Noteworthy in this book is the author s references to the various places where the actions, attitudes and words of Christ and His disciples contradict commonly accepted ideas about healing. Beyond the comprehensive nature of this book is fact that the author is highly experienced in healing has seen more than 25,000 healings by Christ and traveled to more than 300 churches sharing this message since the original publication date.
